Subject: Updated Pesticides Issue Paper
Attachments: Pesticides Issue Paper 8.06.14.docx

Hi Everyone (cc: to larger CZARA tech team, FYI),

Thanks everyone for a very helpful call on Monday. I've updated the OR CZARA pesticides (now 5 pages) issue paper based on our discussion and a follow-up discussion with the larger CZARA tech team.

I'm looking for your help in the description, especially to make sure I'm accurately describing the status of the litigation and how the 2013 NRC report will be used. And most importantly, I'm looking for your thoughts on the pros and cons of the options and recommended action to management. I'd appreciate if you could let me know by Monday, August 11, COB. Please feel free to call me if you want to discuss more. Also, as we discussed, we're talking with folks from OEA here tomorrow, so I'll have more information on Triangle Lake. I'm also getting some information from NOAA next week on questions on the litigation. If there's something very relevant, I'll shoot an email to the group.

Thanks,
Jenny Wu
